CITY OF VALDEZ
Project Title: Medical Campus Expansion (MRI)
Project No.: 13-310-9192
Contract No.: 1135

TO: **All Recipients** **Date: October 23, 2013**

SUBJECT: **Addendum No. 2**

This 2 page Addendum forms a part of the project scope documents and modifies the project scope for the above-referenced project. **Acknowledge receipt of this Addendum in the space provided on the Bid Form**. Failure to do so may subject the Bidder to disqualification.

This Addendum makes the following changes and/or clarifications:

Architects Alaska Inc., or any of their subconsultants who worked on the design-build Request for Proposal may not bid on any stage or contract of this project.

As a result of questions raised during the Pre-Proposal meeting on October 14st, 2013 we provide the following questions that arose during the course of the meeting and the formal responses to those questions:

Question 1. Do we have to use the Site Adaptation Design Team as identified in the RFP (Architects Alaska, BBFM Engineers and PDC Engineers). How about Civil and Surveying Company is a preferred firm.

Response: *This RFP is for the Modular MRI Unit only and does not include the Site Adaptation portion of the project which will be a separate contract. The Site adaptation design team will be the team as noted in the RFP. However, City of Valdez will decide the site adaption contractor at a later date. The response for this RFP and Contract only was addressed in Addendum No. 1.*

Question 2. Does the Valdez Medical Center have any equipment which will impact vibrations in the area i.e. Generators, roads, etc.

Response: *The mechanical building across the street has a generator that may impact the design. In addition, there is a helipad to the north of the proposed site. There will also be traffic adjacent as indicated in the concept site plan.*

Question 3. Is there a preferred Vibration Consultant the Medical Center will prefer.

Response: *Valdez Medical Center does not have a preference for Vibration Consultant. All consultants for the project must be reviewed and approved by the City of Valdez based on their qualifications and experience.*

Question 4. Will the MRI Equipment be purchased and installed by the Valdez Medical Center.

Response: *This is a separate contract that is not a part of this MRI proposal.*

Question 5. It there a preferred vendor for the MRI Equipment: Siemens, Toshiba, GE or Philips

Response: *As noted the MRI manufacturer is unknown at this time and is a separate contract that is not a part of this proposal.*

End of Addendum
